Supervisor Gallahan requested privilege of the floor for Mr. Matthew Schaertl of Manchester. Mr. Schaertl spoke briefly of his concern on the foreclosure process mentioning different examples and ideas that could be incorporated in the process such as extending the process to four years with the first two years allowed for the sale of the property through a realtor. **RESOLUTION NO. 433-2018  
RESOLUTION INTRODUCING PROPOSED LOCAL LAW NO. 5 (INTRO.)  
OF 2018 ENTITLED “A LOCAL LAW TO RAISE THE LEGAL AGE OF SALE  
OF TOBACCO PRODUCTS IN ONTARIO COUNTY TO 21 YEARS OF AGE”**

WHEREAS, this Board of Supervisors recognizes raising the legal age to purchase tobacco and related products to age 21 will:

1. further the goals of New York State’s tobacco use prevention and control program, as set forth in New York State Public Health Law Sec. 1399-ii; and
2. respond to the fact that smoking is the single most preventable cause of death and disease in the United States and New York State, costing the lives of more than 25,000 New York State residents on an annual basis
3. respond to findings made by the Institute of Medicine, which prepared a report at the request of the U.S. Food and Drug Administration entitled “Public Health Implications of Raising the Minimum Age of Legal Access to Tobacco Products”, concluding and suggesting, among other things, that
  - a. 95% of adult smokers start smoking before the age of 21
  - b. 90% of the people who buy cigarettes for minors are under the age of 21
  - c. raising the minimum legal age to 21 will mean that those who can legally obtain tobacco are less likely to be in the same social networks as high school students
  - d. address the fact that 20% of adults in Ontario County smoke
  - e. prevent exposure of youth, who are particularly susceptible to addiction, to the chemically addictive effects of tobacco and related products, in an effort to improve public wellness

WHEREAS, the Health and Human Services Committee has recommended the adoption of a proposed Local Law, identified as Local Law No. 5 (Intro.) of 2018, entitled “A LOCAL LAW TO RAISE THE LEGAL AGE OF SALE OF TOBACCO PRODUCTS IN ONTARIO COUNTY TO 21 YEARS OF AGE”; now therefore, be it

RESOLVED, that the proposed Local Law, identified as Local Law No. 5 (Intro.) of 2018, entitled “ A LOCAL LAW TO RAISE THE LEGAL AGE OF SALE OF TOBACCO PRODUCTS IN ONTARIO COUNTY TO 21 YEARS OF AGE”, is hereby introduced before the Ontario County Board of Supervisors, and this Board of Supervisors shall hold a Public Hearing thereon on August 2, 2018 at 6:30 p.m. at the Meeting Room of the Ontario County Board of Supervisors at 2914 County Road 48, Canandaigua, New York 14424; and be it further

RESOLVED, that certified copies of this resolution be sent by the Clerk of this Board to the County Administrator, the Public Health Director and the Ontario County Attorney’s Office.

Supervisor Teed noted that although he voted in favor at committee, he has had time to reflect and stated his objection to raising the legal age of the sale of tobacco. He explained he is not in favor of any kind of tobacco, but in retrospect believes at 18 years of age, people are old enough to make their own decision; noting if young people can join the military and risk their lives at 18, they should have the right to decide if they want to purchase tobacco.

Supervisor Gallahan concurred with Supervisor Teed. He explained that you cannot legislate behavior; behavior starts in the home and then the community and he does not believe it is the County’s responsibility to legislate the behavior. He noted that a public hearing may be needed; however, opposes the introduction of this law and objects to its furtherance.

Supervisor Willie prefaced his remarks in support of the Law. He explained that with 45 years in public education and seeing the history of the health curriculum and how far it has come from building awareness, to civic responsibility, to the health problems with addictions and opioids; noting the first level of addiction tobacco creates. He believes at 18, the young people who leave high school are still vulnerable. He stated that if it could be communicated, not in a restrictive way, but in a wellness way. He understands the second amendment, the military, 21 and other issues but believes having a public policy communicates that the County is about wellness and supports the core values as a Board of Supervisors.

Supervisor Wickham explained he does not like the idea of taking away freedoms; he guards them carefully. He agrees with the other supervisors who cast their voice that what is allowed of people in what they do and should not do should be their decision. He appreciates the education and affirms that education is the way to go, but does not believe this is something that should be legislated.

Supervisor Russell asked Mary Beer, Director of Public Health to explain what the consequences of not dealing with the issue and raising the age to 21 will be. He reminded the Board the scenario of potential legalization of cannabis in January and the possibility of the ties with the legal smoking age. He noted his concern of not being able to deal with this as a County in terms of an educational piece in reference to what Supervisor Willie discussed. He supports the message that smoking at an early age causes many more health related problems. Eventually it ends up on the tax payer’s bill; when people can’t

afford their health insurance, their on Medicaid. We support Medicaid but we don't support the educational process.

Mary Beer noted that 96% of smokers begin before the age of 21. Those who are lifelong smokers die or develop related illness. She stated this County is one of the highest rates for male respiratory cancer and one of the highest rates of smoking in the region. Other concerns are vaping, which has been skyrocketing. In addition, she asserted legislature made a big difference in dropping down the rate of smoking after the Clean Indoor Act. Ms. Beer noted as fact; the vast majority of people that are smoking are of low economic status. She explained it is a concern from a public health standpoint. She is concerned in the direction the state is going in terms of legalizing recreational marijuana and the implications that has on the developing young mind that is not developed fully until well into the 20's. There are now 22 municipalities that have enacted this. She believes as more counties adopt, the state will follow suit. She would like to see our County be proactive.

Supervisor Venuti asked if there was any data, if something like this is enacted in regards to its effects. Mary Beer replied there are studies being done that supports this and will have the information at the next Board meeting. She also noted the VA is addressing this issue as well.

Supervisor Marshall noted the vast majority of the Health and Human Services Committee was in favor of the resolution explaining a lot of discussion took place. He noted that Supervisor Teed did bring up the same concerns at Committee. Supervisor Marshall did agree, there ought to be some way to address that situation. He appreciated Supervisor Willie's remarks from an educator's point of view and is something to consider. He also thought that this is such a big issue that it needs to come to more than six at a committee which is why it has been brought forward to the Board of Supervisors. He reminded the Board that this resolution is an introduction to the issue and they would still need to hold a public hearing. He believes hearing from the public would be a worthwhile endeavor so he would continue to support the resolution. After they have heard from the public then it would be time to really think which way to vote.

Supervisor Baker echoed what Supervisor Marshall had to say. He noted he does not support the resolution but believes hearing from the public is needed. He will support the resolution for the public hearing but does not support the resolution itself.

Supervisor Singer stated as far as introducing and fixing the date of a public hearing she will support it. She noted she does not support the legislation itself, she agrees with education; the education of the dangers. There needs to be consistency, mentioning the military and voting; if the young people are smart enough to vote and serve in the military, if they have the right education, they can make a decision to where they are going. She does not believe it will stop them from buying it. She reiterated it's the education that needs to be done and the consequences. She would like to hear from the public, so she will support tonight, but when it ultimately comes to the vote she will not support it.

Supervisor Hicks noted she was at the committee and had a concern due to the average age to start smoking is 13. Supervisor Willie has valid points, and therefore voted in favor of; in retrospect, encouraging healthy behavior and having education she supports, but legislating it, she does not support.

Supervisor Ingalsbe stated he is against the introduction of the proposed local law. He commended Mary Beer for doing a great job. He will vote yes to go forward with a public hearing.

Supervisor Teed noted his respect to Mary Beer and gave an explanation- when do we stop legislating human behavior. He affirmed Supervisor Willie was correct in the education and believes in the education and is in favor of a public hearing.

Supervisor Venuti is voting yes for the public hearing. He would like to hear what the Public Health Officials has to say at the next meeting.

Supervisor Vedora understands both sides and believes education is the thing to stop smoking and drinking. He believes from his own experience that education is what would make someone stop smoking. He plans to vote no.

The foregoing resolution was adopted with Supervisors, Bateman, Hicks, Teed, Gallahan, and Wickham voting nay.

Supervisor Baker offered the following resolution and moved for its adoption, seconded by Supervisor Teed:

**RESOLUTION NO. 435-2018  
REQUEST FOR FUNDING FOR

LAKE HABS ACTION PLAN**

WHEREAS, The Governor’s Water Quality Rapid Response Team identified Honeoye Lake as one of twelve priority lakes across the State as having experienced or vulnerable to Harmful Algal Blooms (HABS);

WHEREAS, On June 16, 2018 the New York State Department of Environmental Conservation (“DEC”) released its Harmful Algal Bloom Action Plan for Honeoye Lake (“Action Plan”); and

WHEREAS, New York State has made funding for implementation of the recommended all prioritized actions identified in the Action plan through the competitive Water Quality Improvement Program, Round 15, (“WQIP”) with applications due by July 27, 2018 through the Consolidated Funding Application (“CFA”) process; and

WHEREAS, The Planning Department has reviewed the Action Plan and the WQIP application requirements and has made a report of its findings, a copy of which is on file with the Clerk of this Board; and

WHEREAS, The high priority action items that will have the largest impact on phosphorus levels in Honeoye Lake and thus on the number, severity, and duration of HABS as identified in the Action Plan are a deep water aeration system and the application of a nutrient inactivant (the “In-Lake HABS Actions”); and

WHEREAS, The Planning and Environmental Quality Committee recommends adoption of this resolution; now, therefore, be it

RESOLVED, That this Board request that the Governor and Legislature of the State of New York recognize the great need for implementation of In-Lake HABS Actions for Honeoye Lake and future extension of the Honeoye Lake County Sewer District and:

1. Direct DEC to continue to work with the County, municipalities, local agencies, local interest groups, and state and federal agencies to establish permitting procedures for the In-Lake HABS Actions.
2. Either make funding available in future years or direct DEC to conduct the bench testing and engineering studies and environmental reviews necessary to implement the In-Lake HABS Actions.
3. Recognize that implementation of the In-Lake HABS Actions and any extension of the Honeoye Lake County Sewer District are likely to cost between 4 and 7 million dollars, and
  - a. either reserve funding from the current WQIP grant or commit funding for future implementation once clear application and permitting processes are created, or
  - b. identify a different funding mechanism to lessen the burden on local municipalities to fund the 25% local share on a limited tax base.
