County Road 39 Rehabilitation - NY 64 to Bloomfield Village Line

August 30, 2019

FOR IMMEDIATE RELEASE

Public Information Meeting for County Road Improvement Project

Ontario County is pleased to announce road improvements are planned for County Road (CR) 39 for the 2020-2021 construction seasons. I'm sure you have noticed the poor road condition; in its present condition the road cannot support the type of traffic it's subjected to, so the County needs to undertake a rehabilitation of CR 39 from NY 64 to Bloomfield Village Line.

We anticipate the project will be completed over two (2) construction seasons. In 2020, we anticipate the drainage improvements will be completed which will consist of culvert rehabilitations & replacements, roadside ditch & driveway culvert improvements, road underdrain, and temporary turf establishment. In 2021, we anticipate the CR 39 & Boughton Road intersection reconstruction, asphalt pavement milling, Hot-Mix Asphalt (HMA) overlay, guide rail upgrades, driveway restorations, final turf establishment, and other incidental construction necessary for completion of the project.

The project will be messy and inconvenient for motorists and area residents during construction. That is the nature of road construction work. Cross culverts will be replaced during this phase of the project and will require a closure of County Road 39 to ensure the safety of the travelling public and construction crews. We anticipate the duration of the road closure will be ten (10) weeks, beginning last week of June 2020 and ending the first week of September 2020. During the road closure we anticipate traffic will be detoured in the following manner:

DETOUR NORTHBOUND TRAFFIC:

- Main Street – NY 64 – Eddy Road

DETOUR SOUTHBOUND TRAFFIC:

- Eddy Road – NY 64 – Main Street

At all other times, the road will remain open to through traffic (1-lane minimum) during the construction.

We plan to publicly bid the construction contract in the fall of this year. Work should begin in the spring of 2020 with a seasonal (winter) shut-down before the end of 2020. The next seasons work would begin in the spring of 2021 and all work planned should be completed by fall of 2021. Throughout the construction, residents within the project area will receive periodic updates (by mail) of progress and schedule.

County engineering staff will host a project information workshop on Tuesday, September 24, 2019, from 7:00-9:00 pm at the East Bloomfield Town Hall, 99 Main Street, East Bloomfield, NY 14443. County engineers will briefly explain the project, and show "front yard" impacts and address any questions and concerns. There will be no formal presentation. Just stop by anytime during the meeting time. We encourage you to attend.

Documents illustrating the proposed the project will be available on the World Wide Web at the following location: <http://www.co.ontario.ny.us/1757/County-Road-39-Improvements>, at the bottom of the page.

If you are unable to attend the informational meeting, or would like additional information, please contact us at 396-4000.
