ONTARIO COUNTY TITLE VI POLICY AMENDMENT

Data Collection and Analysis

Ontario County is required to consider the impacts of its programs and activities on Title VI protected populations. It is important to evaluate issues regarding the equity of both service provision and distribution of impacts related to alternatives on various population groups within the County. Ontario County will continue to update information on minority and low-income population groups and use this information for planning and development of agency programs. Ontario County will collect demographic information on public participation and document all instances of Title VI complaints.

Data Collection

Data collection is an effective Title VI enforcement tool. It is indispensable to the investigatory process in assessing allegations of discrimination and can form the basis for initiating compliance reviews focusing on particular issues or systemic problems that require technical assistance, policy guidance, or other enforcement mechanisms to remedy discrimination. Data collection is also an effective mechanism to ensure that discrimination does not recur.

Data will be gathered from various resources including the U.S. Census bureau, school districts, religious and/or community organizations, as well as data from state and local governments. It is important to maintain an objective information gathering process. The data collected will correlate with decisions made and support the processes and procedures employed within each focus area.

Examples of relevant data include:

- Statistical data on race, national origin, age and sex and statements of disability of participants in and beneficiaries of Ontario County's programs based on surveys and questionnaires completed by impacted individuals.
- Number of complaints filed each year and the outcomes reached
- Summary statements (final reports) of compliance reviews
- Training and technical assistance provided
- Population eligible to be served • Community boundaries
- Public involvement techniques (e.g. minority citizen advisory committees)

- Compilation make up of any planning or advisory board that is an integral part of the program
- Income levels
- Board membership composition of advisory and policy committees.

Analysis

To effectively address Title VI issues, Ontario County will analyze the data it collects to identify any trends or patterns, determine whether the data collected is in compliance or in need of technical assistance, and take such actions as needed to promptly and equitably address problems and ensure compliance. The analysis and monitoring of data is critical in determining whether negative impacts/burdens are disproportionately impacting protected populations, and in ensuring the agency’s services, projects, and programs are being administered without discrimination.

RESOLVED, That the attached Budget Transfer Policy be approved; and further

RESOLVED, That copies of this resolution be transmitted electronically by the Clerk of the Board to all County department heads.

The foregoing block of three resolutions was adopted.

**ONTARIO COUNTY
BUDGET TRANSFER POLICY
2021**

All County Department Heads have requested and justified their budgets and the Board of Supervisors has approved those requests. The expectation of the Board of Supervisors is that all departments will now conduct and account for their operations within the line items included in the budget. It is recognized that departmental spending plans may change and prices may fluctuate between the time the budget was adopted and when expenditures actually take place. However, budget transfers will be authorized only in exceptional circumstances.

Subject to other restrictions in this Policy, and with the exception of capital projects, departments can exceed the budgets of individual line items, but the budget of the total personal services (.1), equipment (.2), contractual (.4), and employee benefit (.8) expense categories in each department, by cost center, will not be overdrawn.

SYSTEM OF APPROVALS

Ontario County operates within the accounting system, Tyler Technologies Munis. With this system, approvals are required within the accounting system rather than on paper. All budget transfers will undergo a final review and approval by the Director of Finance or in the absence of the Director of Finance, by the Deputy Director of Finance. At this approval level, indication of Committees' approvals or Board approval will be made in the comments to ensure the policy set forth below is followed.

DEPARTMENTAL RESPONSIBILITY

Department Heads and managers are responsible for accurately identifying and planning their fiscal needs as part of the annual budget preparation process. After adoption of the budget by the Board of Supervisors, Department Heads are responsible for monitoring their operations to make sure that actual results meet budget expectations. When negative variances occur or are anticipated to occur, Department Heads will immediately take all actions necessary to address and remedy those situations.

TRANSFERS INVOLVING BOARD OF SUPERVISORS APPROVAL

The approval of the department's Standing Committee, the Ways and Means Committee and the Board of Supervisors will be required for any transfers involving the creation of new positions or departments, the acceptance of new unbudgeted grants, the purchase of new unbudgeted equipment or the appropriation of additional Unrestricted or Restricted Fund Balances, Designated Fund Balances or Reserves.

USE OF CONTINGENCY

The approval of the Director of Finance, the County Administrator, the department's Standing Committee and the Ways and Means Committee will be required for any transfers involving the use of Contingency. Depending on the use of funds, the

department's Standing Committee and/or the Ways and Means Committee may request that any transfer utilizing Contingency be forwarded to the full Board of Supervisors for approval.

PERSONAL SERVICESFRINGE BENEFITS

The use of any unused personal services line items (.1) or fringe benefits line items (.8) for the purpose of contracting for service in lieu of filling a position will require additional review and approval by the County Administrator and Director of Finance. Unused funds within these lines are not eligible to be used to supplement shortfalls in contractual or equipment purchase funding.

OVERTIME

A department is expected to operate within the overtime originally budgeted. The overtime line may be overdrawn provided funding exists within the rest of the personal services line items (.1). If funding is not available within the rest of the personal services line items, it is expected that the Department Head will work with Finance to prepare a transfer from a contractual (.4) line item and obtain approval from the County Administrator and the appropriate Standing Committee. Funding within the fringe benefits line items (.8) will not be available for transfer.

DISABILITY/WORKERS COMPENSATION REPLACEMENTS

The Department Head must file a request to create a disability or workers compensation position using the prescribed form. Upon the approval of the County Administrator, the Human Resource Department will prepare the Resolution to create the position and file it with the Clerk of the Board for the next available Board of Supervisors meeting. The department must make every attempt to identify available funding within the departmental budgeted personnel services (.1) or contractual (.4) line items and the source of funding must be referenced in the resolution prepared by the Human Resource Department and if a budget transfer is necessary it must be included within the creating resolution. The request will be presented at the appropriate Standing Committee and the Ways and Means Committee informationally by the County Administrator.

EQUIPMENT

Transfers from an equipment line (.2) into a contractual line (.4) will only be allowed if the purchase price of the equipment falls below \$2,500 which is the County's threshold for determination of equipment and only for the purchase price of the item. The transfer of funds appropriated for equipment purchases (.2) will not be available for use for other contractual line (.4) expenses.

Any request for non-budgeted new or additional equipment costing \$2,500 or more during the year must be processed through the appropriate Standing Committee, the Ways and Means Committee, and approved by the Board of Supervisors.

Fleet Purchases: If a department determines that a different type of vehicle would be more appropriate than the vehicle budgeted, even if the department has enough to cover the change in type of vehicle, the change must go to the Public Works Committee, Standing Committee, Ways and Means Committee, and be approved by the Board of Supervisors (i.e.; purchasing an SUV instead of a budgeted pick-up truck.)

If a department is replacing existing operating equipment that will cost less than \$20,000, the department may transfer available funds from a contractual (.4) line item if funds are

not available within other equipment (.2) line items and these transfers will need Department Head and Director of Finance approvals.

CAPITAL IMPROVEMENT PLAN (C.I.P.)

Any appropriations not used in the C.I.P line items will not be available for transfer and will be returned to fund balance at year end. In certain circumstances, such as one time large projects which were not able to be completed in the current year, C.I.P. funds may be transferred to a designated fund balance at year end via resolution in anticipation of needing those funds to complete the specified project in a future year.

GRANTS NOT IN THE CURRENT BUDGET

Departments will be required to follow the Ontario County policies for Grant Administration, Resolution No. 783-2016, and Sub-Recipient Monitoring, Resolution No. 782-2016.

YEAR END PROCESS

There is a period, after the final Standing Committee and Board meetings of the fiscal year, when budget transfers that would typically require a Standing Committee or Board action have to be processed to facilitate timely completion of the year end accounting processes. During this time, the Director of Finance will review these transfers with the Budget Officer for the County. A detailed accounting of each transfer will be provided to the Ways and Means Committee at its next available meeting for official ratification. At such time as Committees are re-established and hold the first meetings of the year, staff will utilize the appropriate approval structure for any transfers as set forth by this policy.

Resolution No. 268-2019 established Designated Fund Balances for each fund which may incur Compensated Absences. As part of the year end accounting process, compensated absences are adjusted for actual balances of vacation leave benefits attributable to service time of employees but not immediately available for use. The adjustments to these Designated Fund Balances may be made by the Director of Finance as necessary with an update to the Ways and Means Committee at its next available meeting for official ratification.
