FOR IMMEDIATE RELEASE

Public Outreach for County Road Improvement Project

Ontario County is pleased to announce road improvements are planned for County Road 50 for the 2021 construction season. The project is a Federal Aid maintenance paving project. The proposed project objective is to restore the functionality of the pavement surface using cost effective pavement treatments.

The planned work will include some minor road repairs, milling of existing pavement, warm-mix asphalt paving and other incidental construction necessary for completion of the project.

The road will remain open to through traffic (1-lane minimum) during the construction. Traffic will be maintained utilizing short-term, single lane closures. The project may be inconvenient for motorists and area residents during construction. That is the nature of road construction work.

We plan to publicly bid the construction contract in first quarter of 2021. Work should begin in May or June 2021 and last approximately four (4) months.

Documents illustrating the proposed project will be available on the World Wide Web beginning Monday, April 27, 2020, at the following address:

<https://www.co.ontario.ny.us/1819/CR50---Preventative-Maintenance>

Interested commuters, residents, and the general public are encouraged to review the written and graphical documentation available on the project's webpage referenced above. Comments or questions may be directed to the County's project manager at the address below or by submitting a written comment sheet, which will also be available on the project's webpage. The County will accept comments via phone, e-mail, or those postmarked by Friday, May 8, 2020.
